LITHIUM ENERGY

NeverDie®
Dual Channel BMS

The **SAFEST**

most **RELIABLE**

and **ONLY** dual channel, fully protected, plug & play marine lithium system on the market

The OPE-Li3 Battery Management System (BMS) is a dual-channel system (separate charge & load channels) especially optimized for marine house banks. It is the world's first plug & play integrated, one-piece, dual-channel BMS. Developed by Bruce Schwab (renowned solo ocean racer, lithium battery expert, and America's first Vendee Globe finisher) together with Lithionics, the OPE-Li3 is the safest lithium battery system available anywhere.

Choose your OPE-Li3 ND-DC Lithium Battery System by Case Size

G31EXT 12.9"x6.8"x10.1" 	Model	Voltage	Capacity	Weight	Price
	12V110A-G31EXT	12V	110Ah	30lb	\$1681
	GT12V180A-G31EXT	12V	180Ah	40.8lb	\$2912
